

RESTICKABLES REPOSITIONABLE GLOSSY PHOTO PAPER

Printworks Restickables Repositionable Glossy Photo Paper is true glossy photo paper with a full adhesive backing for memories that stick. You can stick, remove, and re-stick Restickables just about anywhere. Follow the printing instructions below to achieve optimal printing. Restickables is designed for use with inkjet printers only. Do not use with laser printers.

Product Handling and Storage

Always handle photographic paper carefully. To avoid getting fingerprints on the printable surface, always handle the paper by the edges.

- Keep paper away from moisture and high humidity.
- To extend the life of your prints, do not expose printed or unprinted paper to bright light or direct sunlight for long periods of time. Ultra-violet rays have damaging effects on *any* photographic paper.

Step 1: Load Your Photos Onto Your Computer

- Transfer your images from your digital camera, scanner, CD or the Internet to your computer.
- Choose the photo that you want to print and open it.

Step 2: Edit Your Photo (Optional)

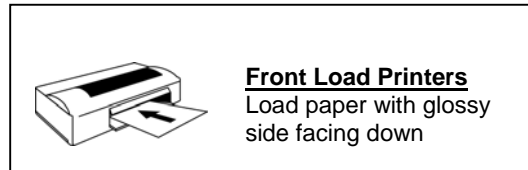

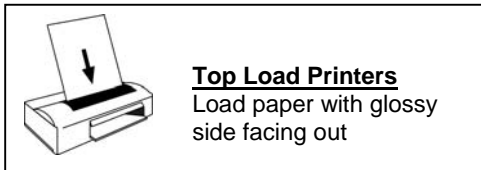

- Use image-editing software on your computer, such as Adobe Photoshop, to resize, enhance or customize your photos (follow the instruction of you software to edit photos). Once you are happy with your photos you are ready to print.

Step 3: Print Your Photos

- Use the chart below to determine your printer settings/properties for optimal printing.

Printer Type	Media Type	Print Quality	Other
HP Ink Jet & HP PhotoSmart Printer	HP Premium Photo Paper Glossy	Best	
Canon Bubble Jet Printers	Glossy Photo	High	BJC: Photo Realistic
Canon S Series	Photo Paper Pro	Fine (Custom Set)	
Epson Stylus Photos & Epson Ink Jets	Premium Glossy Photo Paper	Mode: Custom Custom Settings: Advanced Print Quality: Best Photo High Speed: Off	
Lexmark	Glossy Photo Paper	High	Natural Color

- **Test Print** - We recommend printing your image on a plain sheet of paper to ensure proper size and location of your image. To conserve ink, set your print quality to fast or draft mode. *Note: Image quality will not be as good when printed on plain paper.*
- **Load Paper** Load a single sheet of Restickables Repositionable Glossy Photo Paper into your printer. See image below to help determine which way to load your paper and print.

- **Peel off the backing. Stick. Remove. Re-stick. Repeat** and enjoy! There is not need to wait for you photos to dry. Restickables Repositionable Glossy Photo Paper dries instantly!
